OFFICE OF THE SECRETARY, BOSTON, January 11, 1893.

*To the Honorable Senate and House of Representatives.*

I have the honor to submit, in accordance with section 118 of chapter 423 of the acts of 1890, the third annual report of the number of assessed polls and the number of registered voters at the dates of the state, city and town elections in the year 1892, and the total number of persons who voted at such elections in each city, town and voting precinct in the Commonwealth.

I also submit, in accordance with section 4 of chapter 329 of the acts of 1891, the following suggestions:—

*First.* That section 4 of chapter 413 of the acts of 1889 be amended by striking out the words “and in the case of a first election in a district or division newly established, other than a town or ward, the number of fifty shall be so sufficient.” The effect of this amendment will be to require in election districts the same number of signatures to a nomination paper for a first election as is required for other elections. There seems to be no reason for any distinction in these cases.

*Second.* That section 5 of chapter 413 of the acts of 1889 be amended by striking out the words “and, in case of a nomination for a city office.” The effect of this amendment will be to require that the street and number of the residence of the candidate shall be given in all nominations. This will aid in the identification of candidates, and ensure their speedy notification.

*Third.* That it should be provided that the acceptance of a nomination upon a nomination paper must be filed with the paper. In a number of instances such nominations have been made without the knowledge or consent of the candidates.

*Fourth.* That the secretary shall not be required to receive and file nomination papers containing more names than the registrars of voters are required by law to certify. There is a disposition in some cases to obtain and file nomination papers containing large numbers of names simply for political effect.

*Fifth.* That there should be a provision of law distinctly defining what shall constitute a convention when held by a political party which cast less than three per cent. of the vote for governor at the preceding election. A special provision is made for caucuses held by such parties in section 6 of chapter 436 of the acts of 1890. A convention held by one of these political parties was objected to, on the ground of illegality at the last election, and the objections were sustained by the ballot law commission. It would be well to avoid questions of this kind in the future by distinctly specifying what measure of representation of a district should be necessary in a convention.

*Sixth.* Special provision should be made for the filing of nominations at all special elections, similar to those now existing in case of elections to fill vacancies in the offices of senator and representative in the general court. It is impracticable to comply with the present provisions of the law.

*Seventh.* That there should be a distinct provision that precinct officers shall return to the city and town clerks the number of names checked at elections, returning the number of names of women separately. This is necessary in order to obtain accurate information for the returns required to be made by the secretary to the legislature.

*Eighth.* That it should be distinctly provided whether the cost of repairing ballot boxes should be borne by the Commonwealth or by the cities and towns. There seems, under the existing law, to be a doubt on this point.

During the year, many complaints were made to this office of imperfect working of the state ballot boxes. In order to obtain, if possible, more satisfactory boxes than those in use, the commission created by the election law, consisting of the secretary of the Commonwealth, the

treasurer and the auditor, invited all inventors to exhibit their boxes at the state house. Four boxes were presented and all were carefully examined by the commissioners, aided by an expert machinist. As a result, the commissioners approved what is known as the "Ideal" ballot box, and twenty-one of them were ordered and put into use in new voting precincts, or in place of other boxes which had become irreparably damaged. The reports of the working of these boxes are generally favorable. The commissioners, however, do not regard the question as settled, but will continue to receive and examine all inventions of the kind until a perfectly satisfactory box shall have been obtained.

Very respectfully,

WILLIAM M. OLIN,

*Secretary.*

## NUMBER OF ASSESSED POLLS, REGISTERED VOTERS AND PERSONS WHO VOTED AT ELECTIONS.

---

Tables of percentages and comparisons are printed on pages 8, 9, 10, 11, 12 and 13.

Apparent incongruities in the report may be accounted for, in part, as follows:—

*First.* The number of assessed male polls includes aliens and other persons who are not qualified to become registered voters.

*Second.* The number of registered male voters includes persons who are exempt from taxation and therefore are not included in the number of assessed male polls.

*Third.* The number of female polls assessed in 1892 is not returned, the provision of law requiring an assessment of a tax upon certain female polls having been repealed.

*Fourth.* Many names of voters on the list at the state election are by reason of change of residence erased from the list of voters at municipal elections.

### DATES OF ELECTIONS.
